

## Features

[Back to top](#) ▲

- **ArmourCoil Protected Heat Exchanger** Armour coil heat exchangers are protected with an exclusive coating that isolates the metal from chemically treated water preventing corrosion.
- **Digital L.E.D. Control Panel** Easy to read LED panel provides digital temperature read out and quick diagnostic identification.
- **Union Connections and Protective Screen** Union connections provide for easy installation and maintenance. Vinyl coated steel screen that protects the evaporator coil from damage.
- **Round Base** Compact footprint allows for easy installations and is ideal for retrofit replacements, and has integrated hurricane tie-downs to meet local codes.

## Heat Pumps
