

BYE BYE MAINTENANCE!

The System:3[®] Modular Media filter can go up to an entire season without cleaning.

A Perfect View

Top-mounted pressure gauge and operating instructions are conveniently located for at-a-glance viewing.

Strong Stuff

Constructed of Dura-Glas[®] – Sta-Rite's exclusive high-density composite resin resists corrosion and weathers the elements.

Very Safe

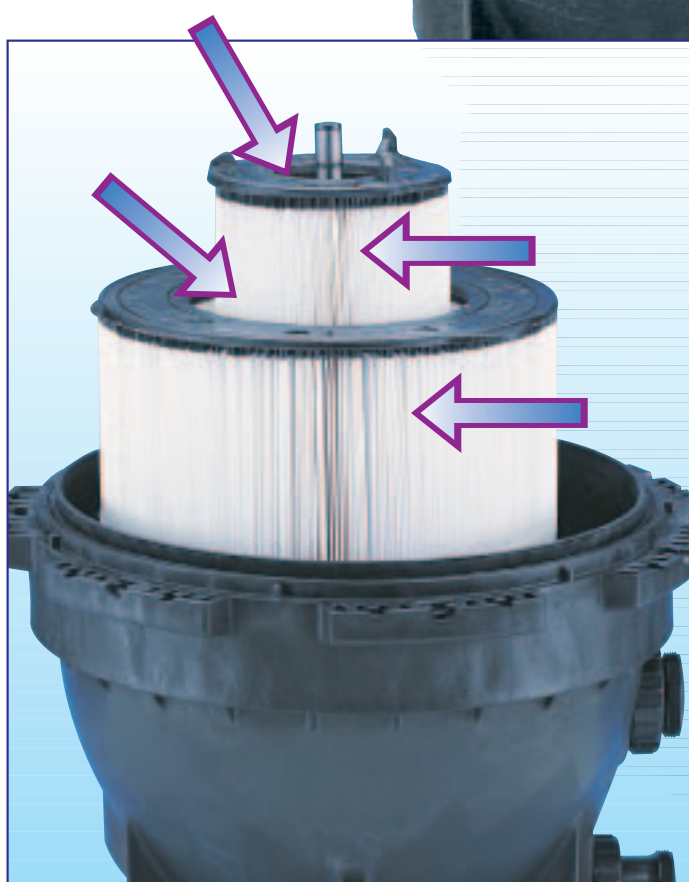

Posi-Lok[®] clamps provide safe, easy access to filter modules. Split-tank design permits rinse-in-place cleaning.

Sleek Looks

Contemporary styling and a matte black finish.

Ultra-Capacity Filtration[®]

Balanced-flow tank design directs water through both sides of each manifold-pleated module. Debris is evenly collected over its entire surface without clogging.

Simply Smarter.
