For internal use only
P.S. #:
Client Code:

Fill in the vinyl step page and/or a slopes page if necessary.

For pools that require A-B measurements, place 2 stakes at least 3 feet from the pool ensuring that the continuation of a line through A and B does not intersect the pool. The stakes should be 12 to 20 feet apart.

Take measurements from each stake to the same points on the perimeter of the pool. Required points are represented by dots on the shape pages. Fill in all boxes for straight sections, perimeter, and A-B distance.

For pools that only require measurements, fill in all boxes on the shape pages.

\* If slopes are not standard, please fill in a slopes page.
